

Networks everywhere and now up there.

Automation, visibility and control for the data center,
wired/wireless access and now the cloud

Look to the horizon. What is the forecast? Anticipating clear skies or the winds of change? Do the clouds indicate smooth sailing or storms? Enterasys Networks can help you answer these questions.

- ✓ Networking for virtualized application delivery – automated, secure, scalable. (VMware, Citrix, Microsoft, and more.)
- ✓ Integrated Physical/Network security for wired/wireless deployments
- ✓ Granular visibility & predictive security
- ✓ Consistently deliver the best TCO - documented by numerous global customers

Hourly presentations in the theatre. Daily raffle for booth visitors!! Scan your badge and be eligible to win a Garmin Nuvi 1450T!!

Networks Everywhere – And Now Up There.
