

Enterasys Education Services

Robust, flexible training to meet your needs and the needs of your business

Overview

Enterasys makes it easy to fully leverage your technology investment by offering the flexibility to take advantage of our training classes wherever you are. Our wide variety of educational courses and technical certifications are offered at many global Authorized Training Centers or regional training events, at your location in a customized training session, or from the comfort of your home or office via our web-based live virtual classroom. We offer a modular approach to technical certification training focused on practical, hands-on learning that's relevant to supporting and optimizing your Enterasys Network solutions to meet your business requirements.

The Training You Need, Anywhere You Need It

We believe that technical training is an important element of doing business and allows customers to unleash the full value of Enterasys, which is why we make it easy to take advantage of our top-notch, quality instruction wherever you like. Our knowledgeable instructors use multiple methods to meet our varying customer and partner educational requirements, ensuring that you are equipped to more effectively manage and support your network. The quality of our robust, flexible training offering is a contributing factor to our industry-leading 97% customer satisfaction rate.

Enterasys Virtual Classroom

Enterasys Virtual Classroom offers you the convenience of attending an Enterasys Technical Training course from the comfort of your home or office. The same courses offered at our training locations are given over the Internet, using your personal computer. Within these classes, you are exposed to the same material, the same technically educated instructors, and the same lab exercises as you would be exposed to in an actual training class. For a complete listing of classes currently offered using the Enterasys Virtual Classroom, please visit <http://www.enterasys.com/services-training/ClassSchedule.aspx> and select your region.

Authorized Training Centers

Open-enrollment training for our standard course curriculum is provided at many locations across the globe, providing a cost-effective, flexible way to gain the knowledge and certification needed to help you get the most out of your Enterasys technologies. Offered at our Enterasys offices or any of our Authorized Partner Training Centers, our technically knowledgeable instructors will lead you through a combination of lectures and hands-on lab courses designed to provide you with the information you need to run your network in alignment with the specific requirements of your business. For a complete list of training center locations, please visit <http://www.enterasys.com/services-training/enterasys-training-locations.aspx>.

Onsite Training

Our customized, onsite training delivers personalized classes focused on the topics that are relevant to achieving your specific business objectives. Our instructors come to your facility with the equipment, expertise, and courseware to provide you with a valuable learning experience. To find out more about our onsite services, please contact your local sales representative or email Enterasys education at education@enterasys.com.

Benefits

Enterasys Virtual Classroom

- Offers students the ability to attend classes from the comfort of their home or office
- Provides a convenient solution for students without the time or the budget to travel
- Provides each student with their own dedicated virtual hands-on lab environment

Authorized Training Centers

- Wide selection of classes are offered at many locations across the globe
- Provides a cost-effective, flexible way to get the most out of your Enterasys investment

Onsite Training

- Enterasys brings the classroom to your business location eliminating the need for travel
- Classes are customized to deliver training that is relevant to your business needs

Regional Training

- Offers the convenience to attend classes in a city close to you
- Provides the ability to meet and collaborate with regional customers

Technical Certifications

- Different certification levels provide the right amount of training to achieve your business goals

**There is nothing more important
than our customers.**

Regional Training

Powered by the Enterasys Mobile Classroom, Enterasys Technical Training brings our classes on the road, providing the same level of technical hands-on experience that students would gain at our Authorized Training Centers but in a more convenient location – in a city near you! For a complete listing of locations and schedule classes, please visit <http://www.enterasys.com/services-training/ClassSchedule.aspx>.

Technical Certifications

Our networking certification program has everything you need to develop your skills to maximize the performance of your network and better meet the needs of your business. You will learn the skills to successfully deploy and manage Enterasys products in your environment. We also offer a number of certification levels, so you can choose the correct amount of training to achieve your business goals:

- [Enterasys Systems Engineer \(ESE\)](#)
- [Enterasys Security Systems Engineer-IPS/SIEM \(ESSE-IPS/SIEM\)](#)
- [Enterasys Security Systems Engineer-NAC \(ESSE-NAC\)](#)
- [Enterasys Certified Internetworking Engineer \(ECIE\)](#)

“Enterasys worked with my team on a customized solution that supported our unique campus structure, while offering high-quality training that would have been cost-prohibitive with other vendors. The Enterasys training has set the quality benchmark by which all our other vendors are now measured.”

Kent Keyser, Director of IT
San Diego Community College District

“The quality of training has been outstanding – Enterasys worked side-by-side with our team to transfer knowledge and demonstrate thought leadership without arrogance to ensure we could operate and maintain the system ourselves.”

Pritchard Moncriffe, CIO
Langston University

“We have found the training offered by Enterasys to be of excellent quality, and the GTAC team is the best technical support team we have ever worked with.”

Carlos Maldonado,
Network and Security Administrator
Oral Roberts University
