| X-Series | |
|----------------|--|
| Model | Description |
| Chassis | |
| X16-CS | 16-slot X-Series Chassis, 3 Fan Assy., 1 CM, 1 FM, 1 AC Power Supply, and 1 ENS Software License |
| X8-CS | 8-slot X-Series Chassis, 3 Fan Assy., 1 CM, 1 FM, 1 AC Power Supply, and 1 ENS Software License |
| X4-CS | 4-slot X-Series Chassis, 2 Fan Assy., 1 CM, 1 FM, 1 AC Power Supply, and 1 ENS Software License |
| X16-C | 16-slot X-Series Chassis, Spare |
| X8-C | 8-slot X-Series Chassis, Spare |
| X4-C | 4-slot X-Series Chassis, Spare |
| X-FAN-AC | X-Series Fan Module |
| X-FAN | X-Series Fan Module |
| X-AC | X-Series AC Power Supply |
| X-CM-00 | X-Series Control Module |
| X16-FM | X-Series X16 Switch Fabric Module |
| X8-FM | X-Series X8 Switch Fabric Module |
| X4-FM | X-Series X4 Switch Fabric Module |

| X-Series | |
|---------------|---|
| Model | Description |
| X-ENS-LIC | X-Series Enterasys Networks System License |
| X-4G-MEM | 4GB Memory Expansion for X-Series Control Module |
| X-T32-00 | 32-port 10/100/1000BASE-T RJ45 X-Series IOM |
| X-G32-00 | 32-port 1000BASE-X SFP X-Series IOM |
| X-GT16-00 | 16-port 1000BASE-X/10/100/1000 COMBO X-Series IOM |
| X-M2-00 | 2-port 10GBASE-X XFP X-Series IOM |
| X-M8-01 | 8-port 10GBASE-X XFP X-Series IOM |
| X16-MBRKT | X-Series X16 Mid-Mount Bracket |
| X8-MBRKT | X-Series X8 Mid-Mount Bracket |
| X4-MBRKT | X-Series X4 Mid-Mount Bracket |
| X16-CBLMG-KIT | X-Series X16 Cable Management Assy. |
| X8-CBLMG-KIT | X-Series X8 Cable Management Assy. |
| X4-CBLMG-KIT | X-Series X4 Cable Management Assy. |

Replacement Product Strategy – Enterasys S-Series

With the availability of Terabit-class performance and the automation of key technologies such as virtualization, data center and unified communications in our next generation S-Series Switches , Enterasys is announcing the End of Sale of the X-Series Modular Router. Enterasys S-Series, the premier family of high performance enterprise Ethernet switching and routing platforms, delivers a powerful combination of Terabit-class performance with granular visibility and control over users, services and applications. Offering exceptional price/performance and scalability in a compact form factor, the versatile S-Series is ideal for enterprises deploying a resilient enterprise class multi-Terabit core router, high-end storage switch, and data center virtualization solution.
