SupportNet

Descriptions:

SupportNet (ES-SN) The cornerstone offering of the portfolio features the core technical services required to support all your hardware products effectively. Services include telephone and Web support, firmware upgrades, and next-business-day parts delivery.

SupportNet Premium (ES-SN-P*) Building on the comprehensive support offered with SupportNet, SupportNet Premium provides faster response options for replacement parts: 2-hour or 4-hour around-the-clock delivery.

SupportNet Onsite (ES-SN-OS) If you don't have the in-house resources to match your maintenance requirements, SupportNet Onsite brings Enterasys-certified engineers to your site, in addition to providing the other services included in SupportNet.

SupportNet Onsite Premium (ES-SN-OSP*) Delivering the same comprehensive level of engineering expertise to your premises as SupportNet Onsite, SupportNet Onsite Premium offers faster response options: 2-hour or 4-hour around-the-clock delivery.

SupportNet Software Application Service (ES-SAS) Maintain the best performance from your Enterasys software applications such as NetSight™ Atlas management and Dragon™ intrusion detection. Includes all maintenance releases plus minor and major product upgrades, 24x7 technical phone support, and Web access to the latest technical information.

SupportNet Technical Access (ES-SN-TA) Recommended for customers who have ample on-site technical resources, including staff and replacement inventory, this level of service provides telephone and Web support, return-to-factory repair service, and firmware upgrades.

How To Order:

Find the product part number you wish to purchase maintenance for. Combine the SN Band with the level of service you are purchasing and combine the two to form a SupportNet Part Number. For example . . . the part number C2G124-48 has an SN Band of "S04." To purchase Onsite Response, Next Business Day, you would order ES-SN-OS-S04.
